## PRINCIPLES AND CONDITIONS

1. This examination, the Examination for Foreign Students, referred to as YÖS, has been designed for foreign students wishing to study in Higher Education Institutions in Turkey and dependent on the results of this examination they can apply to Turkish Institutions of Higher Education. This examination is prepared and administered by the Student Selection and Placement Center (ÖSYM).
2. This Guide contains the regulations and procedures which must be followed by foreign students who wish to take the Examination for Foreign Students (YÖS-2008) in order to study at an institution of higher education in Turkey, starting in the academic year of 2008-2009.
The results of YÖS are valid for two years.
3. All correspondence between ÖSYM and applicants is in Turkish or English, and in Latin characters.
4. ÖSYM is not responsible for late deliveries and postal losses during correspondence. Applicants who have lost or not received their 2008-YÖS Entrance and Identification Cards or Examination Results Cards by the given dates may request another one from "Öğrenci Seçme ve Yerleştirme Merkezi, ÖSYM-SHB, Bilkent, Ankara, TÜRKIYE".
5. Application is made by sending or personally delivering to ÖSYM the Application Form enclosed in this Guide together with the required documents. Once a candidate has applied to take the YÖS examination, and received an application number, this must be quoted in all communications with ÖSYM. Correspondence in which the application number is not stated will not be taken into consideration.
6. No additions or changes can be made on the Application Form and in the choice of the examination center after the form has been submitted. If more than one completed Application Form, together with a statement of payment of fees is received from the same applicant, the last application will be the one that is considered valid.
7. The results of this examination are applicable only for students wishing to enroll in undergraduate programs. Students presently enrolled in undergraduate programs who seek a transfer, and also those who wish to follow graduate programs, should apply directly to the institutions of their choice.
8. ÖSYM is not responsible for any housing or maintenance problems of students, nor is it responsible for securing a scholarship or a residence permit.
9. Both the Application Form and the fees of application and examination cannot, under any circumstances, be carried forward to another academic year. A person who pays the fee, but decides not to apply, or whose application is considered invalid, or who does not or cannot take the exam, or who is not allowed to sit the exam or is expelled from the exam hall, or who fails the exam, or whose exam paper is invalid for any reason, or who pays for any procedure which does not require payment cannot claim the right to a refund of the fees paid.
10. Upon the publication of this Guide, ÖSYM reserves the right to make such changes in the regulations of the

2008-YÖS Examination as may be deemed necessary, following the rulings of executive, legislative, and judicial bodies, and/or of the Higher Education Council (YÖK), and the Evaluation Committee. Candidates must apply in person between 10-12 April 2008 and they must have valid proof of identity.

Candidates are responsible for completing the formalities required by their own countries if they wish to take the Examination for Foreign Students at a center outside their own countries. ## EXAMINATION CENTERS

16. This year, the Examination for Foreign Students (YÖS) will be held in Ankara (Turkey) and also at Kabul (Afghanistan), Mezar-ı Serif (Afghanistan), Tirana (Albania), Baku (Azerbaijan), Dacca (Bangladesh), Cairo (Egypt), Jakarta (Indonesia), Amman (Jordan), Almaty (Kazakhstan), Nairobi (Kenya), Bishkek (Kyrgyzstan), Beirut (Lebanon), Skopje (Macedonia), Kuala Lumpur (Malaysia), Ulanbator (Mongolia), Abuja (Nigeria), Islamabad (Pakistan), Pretoria (Republic South Africa), Kazan (Russian Federation), Dakar (Senegal), Damascus (Syria), Dushanbe (Tajikistan), Bangkok (Thailand) and Tashkent (Uzbekistan). In all centers, the date and hour (local time) of the examination will be the same.

Each applicant must indicate the center of choice on the Application Form and applicants may only take the examination at this center. Once the application procedure is completed the examination center of choice cannot be changed.

## THE EXAMINATION (YÖS)

17. The 2008 Examination for Foreign Students (YÖS) will be held on Sunday, 13 April 2008. Candidates taking the examination must present the 2008-YÖS Examination Entrance and Identification Card and if the center is Ankara (Turkey), a valid passport as well. For all other centers, identity cards are also required.
For students taking the examination at the Ankara Center, the passport must have been stamped "Görülmüştür" at the Security Office of Ankara (Ankara Emniyet Müdürlüğü, Yabancılar Şube Müdürlüğü, Samsun Asfaltı, Hipodrom Karşısı, Ankara) by 4 April 2008 at the latest. Candidates whose passports do not bear this stamp will not be permitted to take the examination in ANKARA. 2008-YÖS Examination Entrance and Identification Cards are also required.
Candidates must bring with them soft lead pencils, an eraser, a pencil sharpener and must not bring cellular phones into the examination hall. Following identification check at 09.00 a.m., candidates will be admitted to the examination halls.

The examination consists of two parts. The first is the "Basic Learning Skills Test" which assesses abstract reasoning. In the "Basic Learning Skills Test", there are no questions on Physics, Chemistry, Biology and Geogrophy. The questions have a minimal dependence on language but explanations are given in English and Turkish. The second part is the "Turkish Language Proficiency Test" which assesses the candidates' comprehension of written Turkish.

The two-part examination is in a single booklet. It is a multiple choice test, and the candidate is required to select the right answer among five alternatives. The candidate marks the answer sheet carefully filling in the alternative of his/her choice. Answers will be counted as incorrect if more than one of the alternatives is marked or if the candidate marks more than the given space for the answer. Answers marked anywhere other than on the given answer sheet will not be considered valid.

It is against the rules for candidates to talk, cheat or assist others during the examination. Students found disobeying the rules will be disqualified.

At the end of the examination, candidates as instructed, hand in both the question booklet with the answer sheets and 2008-YÖS Examination Entrance and Identification Card to the person in charge of the examination hall.

For the applicants whose examination results are discounted because they have not obeyed the rules of the examination or have not returned the necessary documents at the end of the examination, the answer sheets will not be evaluated according to the above explanations and an Examination Results Card, Examination for Foreign Students, will not be issued.

## THE EVALUATION OF THE EXAMINATION RESULTS

18. The number of correct and incorrect answers in each of these YÖS tests are counted separately. The raw score of each test is obtained by subtracting $1 / 4$ of the number of incorrect answers from the number of correct answers. The raw scores are converted to standard scores of which the mean is 50 and the standard deviation is 10 .

## ANNOUNCEMENT OF THE EXAMINATION RESULTS

19. The Examination Results Cards of the Examination for Foreign Students are mailed to the addresses given by the applicants on their Application Forms. For this reason candidates must be sure to give their full address and write it clearly in block letters on the reverse of the Registration Card and also carefully block in the same address in coded form on the Declaration Form. In the event of a change of address, ÖSYM must be informed in writing immediately.
Successful candidates should note that they will be required to present their Examination Results Cards in order to be accepted in an institution of higher education.

## APPLICATION TO A UNIVERSITY FOR ACCEPTANCE

20. Foreign students can only make application for the programs offered by the universities in Turkey which are indicated in Tables 1 and 3 of this booklet.
Candidates apply directly to the universities of their choice. The examination results are one of the most important requirements for acceptance. If candidates are using their (YÖS) examination results as part of their application, then they must have received at least a 40 standard score in the Basic Learning Skills Test.

Candidates can also apply to Turkish universities with some other international examination results. For these results to meet a university's requirements of acceptance they must have been recognized as the equivalent of the (YÖS) examination.
Apart from YÖS, the international examinations which are recognized by the Higher Education Council (YÖK) are, The Examination of the Turkish Republics and Related Societies (TCS), Scholastic Aptitude Test (SAT I), American College Testing (ACT), General Certificate of Education (GCE) A Level, International Baccalaureate (IB), Abitur, French Baccalaureate, Matura, Tawjihi Examination held in Jordan and Palestine, Baccalaureate Examination held in Lebanon, Al-Shahada-Al Thanawiyya (Baccalaureate) Examination held in Syria, Gaokao held in the People's Republic of China. Also the candidates who have been awarded golden, silver or bronze medals in the international science olympiads recognized and participated in by TÜВІТАК, may apply to the universities directly.

Each university determines individually which of these examinations it will accept, and at which level. Candidates can reach the web-sites of the universities for information about the examinations and levels accepted by the universities.

The Turkish Language Test is not taken into consideration in any program for acceptance, whatever the language of instruction. The Turkish Language Test is only used to decide whether a candidate who has been accepted into a program which is conducted in Turkish can immediately commence that program or not.
In Turkey, some universities in all of their programs and some in only a few, offer instruction through a foreign language. In all other higher education institutions, the medium of instruction is Turkish. Applicants who have been accepted into higher education programs where the language of instruction is Turkish must also register in the program into which they have been accepted, but those whose Turkish is considered to be insufficient are given up to one year in which to attain and prove their proficiency. They are then allowed to commence their programs of higher education.
The universities will announce the dates of application for foreign students, and their requirements, in Turkish newspapers. These advertisements can also be found on the web-sites of the universities. Foreign candidates can also reach the web-sites of the universities at the end of this guid.
21. Applicants who wish to enroll in higher education programs which require special skills such as art, music, physical education, sculpture, visual and stage arts, interior architecture, ceramics and glasswork, graphic arts and textile arts, are selected by means of special skills tests, but foreign students are still required to take the YÖS examination or to obtain an acceptable score in one of the international examinations in order to apply (Table-3). The information about the quotas, requirements and the procedures of selection for these programs should be obtained directly from the higher education institutions concerned.

Applications for the Special Skills Tests of the universities will be considered according to the score obtained in the YÖS or equivalent international examinations. Following the decision of the individual institutions on the number of applicants they can accept, applicants are then called to take the special skills test, the dates of which are set by the individual institutions.
22. For each faculty or school of the state universities, the number of foreign students from any one country cannot exceed $20 \%$ of the total quotas of the programs of the faculty or school in question.

## CASES IN WHICH YOU CANNOT CLAIM A RIGHT

23. Candidates are responsible for the accuracy of the information given and the coding of the application forms. Giving wrong information, pasting another's photograph on the application form, having someone else take the examination, disobeying the regulations of the examination and such like behaviour can all cause the examination results to be cancelled. Further, legal and administrative procedures will be set in motion, however much later the facts come to light.

## PROCEDURES FOR REGISTRATION

24. Each candidate accepted in a program of higher education must, whatever his/her score in the Turkish

Language Proficiency Test, comply with the regulations of that institution and submit the documents required within the stated registration time limits of the academic year 2008-2009. In order to register, a student must apply directly to the institution where he/ she has been placed and show a passport bearing a student visa. This visa can be obtained from embassies or consulates of the Turkish Republic abroad, and for those students in Turkey, from the Local Directorate of Security.

The right to study in Turkey is also granted, without a student visa requirement, to those aliens, including the holders of the Document for the Use of the Rights Granted by the Law, No. 4112, who originally had Turkish nationality by birth but, upon the Turkish Government's approval, have given up their nationality and have been admitted to the nationality of a foreign state, and have, upon their qualification in the Examination for Foreign Students, been accepted into a higher education program.

At registration, a student must also prove that he/she is a graduate of a secondary school of a level equivalent to that of a Turkish high school. This procedure for determining the level of education is carried out by the Turkish Republic Ministry of Education. The documents, (a) the original of the secondary school diploma and (b) transcripts showing the names of courses, number of hours per week and grades received for the courses, should be sent to the following address: "Milli Eğitim Bakanlığı, Talim ve Terbiye Kurulu Başkanlığı, Teknikokullar, ANKARA".
25. Following registration, for students accepted in a program of higher education where the medium of instruction is Turkish, the date and conditions of the commencement of studies are dependent upon the scores obtained in the Turkish Language Proficiency Test. (a) Those who are considered to be proficient in Turkish may commence their studies at the beginning of the academic year (A-Level). (b) Those whose Turkish is such that the student can be expected to attain proficiency within a short time may also commence their courses of study at the beginning of the academic year but at the same time, they will be required to improve their Turkish (B-Level). (c) Those whose Turkish is considered to be inadequate are given one year's leave of absence in order to acquire proficiency in Turkish (C-Level). First, however, the C-Level students must register in their respective programs of higher education. In order to secure the right to follow their given studies in the 2008-2009 academic year, these students must then demonstrate to their institutions of higher education that they have acquired an adequate level of proficiency in Turkish.

The documented evidence that a C-Level student has demonstrated to the institution in which he/she has registered in the 2008-2009 academic year that an adequate level of proficiency in Turkish has been attained must be presented in order to commence studies in the 2009-2010 academic year. Failure to submit this document results in automatic loss of rights of study.

The stipulations mentioned above are valid for those who have graduated from a Turkish high school abroad and in Turkey.

In programs of higher education where the medium of instruction is a foreign language, all students accepted into a program may commence their study programs at the beginning of the academic year, but those whose grades in the Turkish Language Proficiency Test are below the level required (i.e., B and C Levels,) will be expected to follow courses in the Turkish language until they reach the standard required by their institution of higher education.
During the course of the academic year, B and C Level students - as regards Turkish language - may apply to their own higher education institution asking for recognition that they have attained an adequate knowledge of the Turkish language. The proof of this and whether they may commence their studies is left to the discretion of the individual institution.

Turkish language levels are determined by each university for its own students, in line with the grade attained in an international test.
Those with an adequate grade will start their studies at once; the others will have a year's leave in which to get their Turkish up to standard in accordance with the above regulations.

## TUITION FEES AND ACCOMMODATION

26. The tuition fee for the programs of higher education is determined each year. In the 2007-2008 academic year, the tuition fees for foreign students varied depending on the nature of the program. The fees are about 1,250 2,500 US \$ in state universities and 11,000-25,000 US \$ in private foundation universities.

ÖSYM does not offer scholarships for foreign students and cannot be applied to as an intermediary to secure them.

There are dormitories on some campuses and also a limited number of state organized hostels. Students are required to pay the dormitory and hostel charges.

The maintenance costs are about 500-600 US $\$$ per month. Residence permits are only given to students who can prove that they will be receiving adequate financial support.
